ADHERENCE TO ROAD SAFETY PROTOCOLS

Dear Parents/Guardians,

I would like to highlight an important safety concern regarding the drop-off of students at **Gate 2 and Gate 3**. It has been observed that a number of parents are approaching **Gate 2 and Gate 3** from the **wrong side of the road** during student drop-off hours which causes **traffic congestion, disruption of flow**, and most critically, poses a **serious safety hazard** to students, staff, and other commuters.

We fully understand that taking the correct route may require an additional **2–3 minutes**. However, prioritizing **safety over convenience** is essential, especially in a school zone where children are present.

We earnestly request all parents to **strictly adhere to road safety regulations** and approach the school gates from the correct direction. Your cooperation will greatly contribute to a safer and more orderly environment for everyone.

Let us all work together to ensure the safety of our children and uphold the standards of discipline and responsibility expected in and around the school premises.

Regards
Principal
